Jan 2026

The moment kids prepare food themselves,
something shifts. - they explore, taste, and grow.

2+

Cooking together is more than a chore

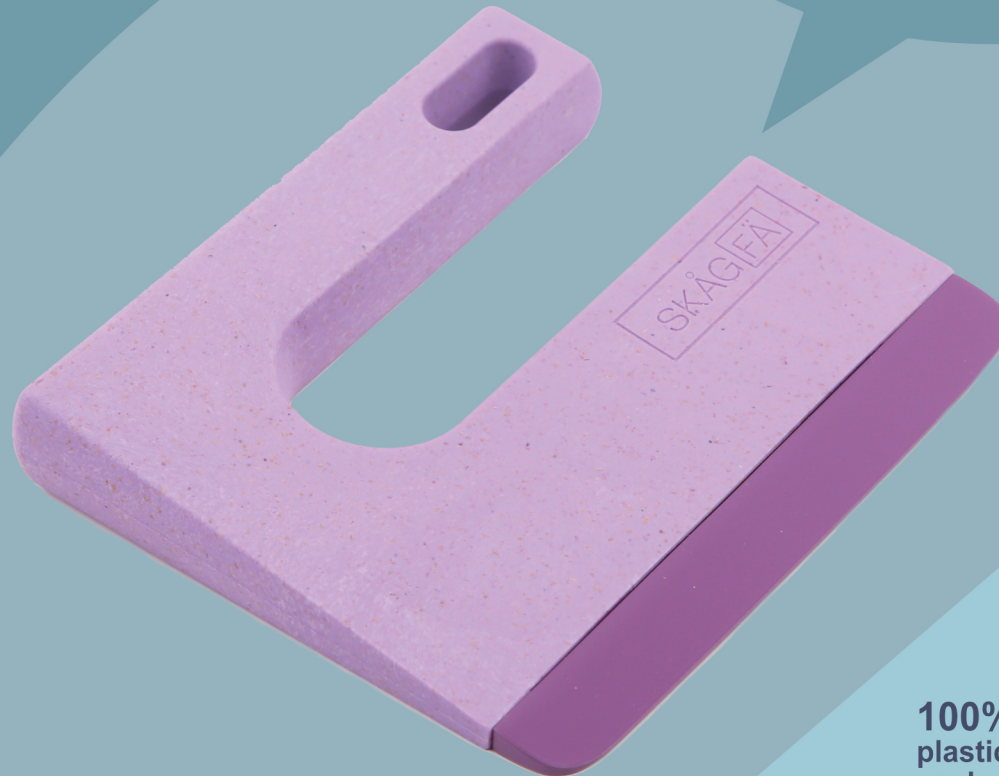

— it's how families connect, grow,
and create memories.

Klyv

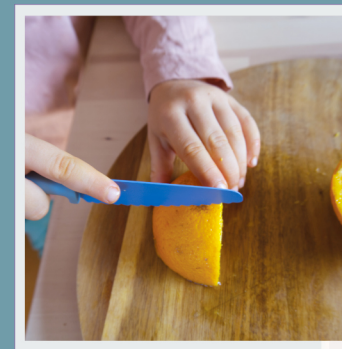

Classic

The knife for kids

Inspired by professional chef knives.
Redesigned for small hands.

At SKÅGFÄ, we believe cooking is where traditions begin — and where families connect. Around the kitchen and the table, values are shared, skills are passed on, and memories are created together.

That's why Klyv Classic is inspired by traditional chef knives and carefully redesigned for small hands, with a clear purpose: learning through real cooking experiences that become part of family life.
